Dedication of the Grave
Steve Everett - Father

From coaching at Bountiful High School for 15 years and building the Hawks baseball program to coaching at BYU camps every summer, and most recently working with the Woods Cross High School baseball program, Coach Everett devoted a large part of his life to mentoring and coaching young men at every level of the sport he loved so dearly. His devotion and fierce love of the game, but more importantly, his dedication to his players, will be part of his *legacy*.

"A coach will impact more people in one year than the average person will in an entire lifetime."

—Billy Graham
