

Mom's Testimony

I believe that we lived before we came to this earth in what we call the pre-existence. I believe that Dad and I were meant to be companions. I believe that you 5 children were meant to be ours. I believe that we knew each other in the pre-existence and we cared about one another. I believe that part of the great joy that I felt as I looked into the faces of you 5 for the first time was because I was reuniting with you whom I already loved beyond all explaining.

I believe that we are the literal children of Heavenly Father. I believe he knows your names and my name. I believe that he cares for you and me. As I have worked in the temple, I have come to feel the true comfort that we are promised. Jesus said he would not leave us comfortless. I believe that we have to access that comfort through prayer and just being good.

I know that my life would have been far different if I had not been a member of this church. I know that the service I have given in this church has benefited me. I hope it has helped others too but I really know that it has helped me to grow and learn.

I love each of you with all my heart now just as I did in the LDS hospital when I first held you.

Love, Mom

JOAN ELIZABETH FECHSER MCCLELLAN
