

## *Angel Dance*

There is a noise in Heaven  
A happy, joyful sound  
Heard as the feet of children  
Are set to dancing all around

They are being taught by angels  
No time for sadness there  
Keeping step with music  
As it rises in the air

A new song they hear playing  
It banishes all pain  
And sets their feet to dancing  
None are sick or lame

With new unhindered cadence  
Their eyes are shining bright  
They are dancing with the angels  
In the glory of Heaven's light
