

To Our Rowan

You will stay long after you're gone  
Your face forever in our minds  
Your sounds forever on repeat  
Your spirit forever felt  
Forever known

Time played no factor on your impact  
You showed such love, such strength  
When they said you couldn't, you proved you would  
Nothing able to stop your light from shining through

Your very existence bringing a presence  
Bringing people together  
A love never before known  
A strength never before found  
Our lives now a legacy to you  
Our hearts beating our love for you

"You are my angel, my darling, my star...and my love will find you,  
wherever you are."

All our love,  
Your Mommy & Daddy
