FLOWER BEARERS

Granddaughters

What is a Mother?

*A Mother is someone special
with a heart that's open wide,
Just filled with understanding
and patient love inside...*

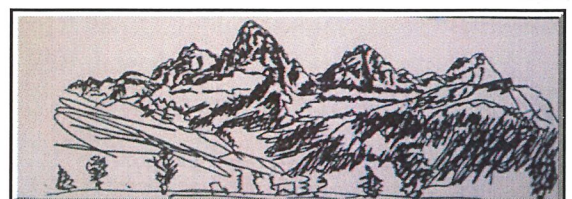

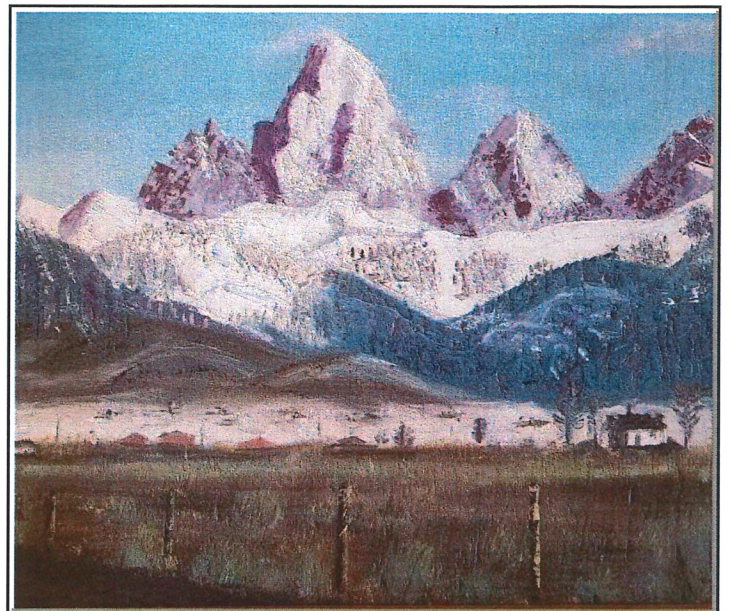

*And the door is always open
for the ones who love her so,
with the knowledge that she'll guide us
In the things we need to know*

*A mother is someone special
who shares in all our dreams...
Encourages us in the things we plan,
Even "little things", it seems...
And she makes our live much richer
with her thoughtful words and smile,
A mother is someone special
who makes our lives worthwhile.*

Gladys Shuman
