Our souls entwine, we know  
not why and rise enraptured  
to the sky.  
To dance and dwell among the  
stars.  
Enchanted love forever ours.  
-Glenna Huff

Between black folds of velvet  
night I lie,  
free now to rest and find  
you in my dreams.  
Transported through vast space  
on star light beams.  
-Glenna Huff
