Dreams

**Dreams are what we make them.
Different people have different Dreams,
But all dreams seem to have a happy end.
Some dreams are to be tough and mean,
Others to be rich and famous.
Some dream of becoming a marine.
One thing is certain, our dreams affect us.
My dream is just to make it home,
And never be sad or alone.
But first we have to get off this battlefield alive,
And for that my will is so strong I can do
nothing but survive.
My dreams are for my friends to make it home with
me,
And for the enemy to fall dead at our knee.
The only thing certain in life is death.
Knowing we will never take another breath.
Years from now when we are old and gray,
People and places just fading memories of yesterday.
There is only one thing that will stay it seems;
And that is our dreams.**
