"I can't believe you're really gone, but I know you're watching down on us now and protecting all of your grandkids that you loved so much. It's never goodbye grandpa, I'll see you later, I love you." -Taya

To my favorite uncle. Your role in my life was gigantic from the start. Your relationship with my mom sparked a fire in us that never dimmed. You have always shown up for me, you always called to check on me, you thought the world of me when I couldn't see myself clearly. You told the best stories of your childhood memories of my grandma growing up. She lived on through you and I was so grateful for that. You always knew what to say and how to say it, always charming and charismatic. Although I know we all have to leave this earth at some point, I never thought about life without you and I don't know how I'm going to finish life but I know the love you instilled in me will carry me through it and we will reunite in Paradise. You were my Giant in this lifetime, you could do any and everything and NOBODY was ever better than you! I see that in Ray Ray and Monnie, even in myself and I know that's a testimony to your love and admiration for us. "If they jealous, tell us"! You made sure I knew I was valued and loved and I'm forever grateful to you for seeing me and always loving me. I promise to cherish our memories, our laughs, our everlasting love, and your presence. Job well done Uncle Willie, we talked a lot but I don't know if I ever told you I am so proud of you! Love your niecey -Pooh Kila Boo

Dear Grandpa, you were the coolest grand father I could ever ask for from taking me to the convenience store when we were at the barber shop to going to talk about sports with me at my house, then to going to take me fishing and show me how to feed them. I will never have another grand father like you ever again Love, Jody Man

Oh grandpa, I'm going to miss you so much. You had a heart full of love and you made sure everyone felt it. Going to miss your phone calls of just asking what I have been up too, your hugs, your handshakes, and all the dance moves you taught me, Taya and Jazzy, or you randomly popping up when I was working. You taught us so much of how you're supposed to be loved and I will forever cherish that. You always would say "It's not goodbye, it's see you later," and that's exactly how I'll remember you, never truly gone, just waiting for us until we meet again. I'm so grateful to have been your granddaughter, You'll always be a part of me, Grandpa, in my heart. I love you forever. -Brooklyn

Grandpa, Who's going to take me fishing now? Who's going to give me softball tips nicer than my Dad? Your high fives were highest, like no one was higher. You were supposed to come to more of my softball games. And I already miss you more than I can say grandpa. See you later because you told me not to say goodbye but this time you were the one who said goodbye I love you so much. See you later, Grandpa. -Laiiah
