

laks... How do you live without your Mom

My Mom was my first thought in the morning. Wonder what Mom needs today wonder what she's doing this morning. Was hardly ever what I needed to get done for the day. So glad now how I put most my days & years into her care. We had a Special bond like no other.

For that I'm forever Grateful

We were always there for each other. Mom was always delighted to see me & that made my heart happy !!

You always think you have time tomorrow next week. Life shows you different- So if your Blessed enough to have your Parents or One as I was. Make sure you spend time with them they need your presence not your presents - and their not difficult- they have more love for you then you could ever imagine. Their love for you is unconditional. Have a Blessed Holiday - Peace Mary

ReJoyce

Joyce Lansfield

1932 ~ 2025
