Friends Are Forever

Friends are forever that I have found
A friend is someone to help you up when you're down
A friend is with you when you are glad
and shares with you when you are sad
A friend always has a smile to share
with hopes it will lift the cross you bear
A friend is someone who will stand by you
To the end to you remain true
A friend is someone who has a listening ear
with caring love to help bring you cheer
A friend can give you the different kind of love
All knowing you're children of God above
A friend will help you to reach for the sky
Yes friends are forever, friends are you and I.

Bobbie
