"Anyone who trusts in him will never be put to shame...For everyone who calls on the name of the Lord will be saved."

On January 8, 1934, God breathed the breath of life in James E. Odom and on August 2, 2023, the breath returned to the Lord from which it came. As the body perish, the spirit that we can recall from our memories are eternal.

James, Granddaddy as the children called him, spent his early years in the Army serving his country. After leaving the services he eventually began working at Bethlehem Steele until he retired.

James the only child of the Late Elizabeth M Pope, married Dorothy Odom and through that union had two children Deborah Odom (deceased) and James Odom Jr. James accepted Jesus Christ as his Lord and Savior early in life and was known was for always calling on the Lord! He will be forever known for his strong VOICE and long lectures (lol). Granddaddy had a love for horses, kept a fresh cut, and always smelled immaculate.

James is preceded in death by his Mother (Elizabeth), Father, Daughter (Deborah), and grandson (Jamie).

He leaves to cherish loving memories: his loving Son James Jr aka Big Jim, grandchildren James aka Boosch, Emanuel aka Man, Jenisa, Quantae, Tichia, a host of great grandchildren and great-great grandchildren. 3 caring sisters Helen, Ruth, and Faye. A host of nieces, nephews, cousins, other relatives and friends and his family in Spartanburg South Carolina.

~Romans 10:11,12

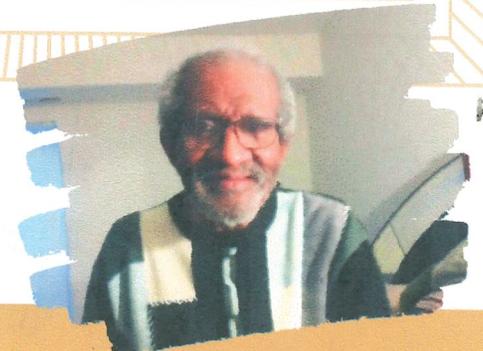

To My Granddad,

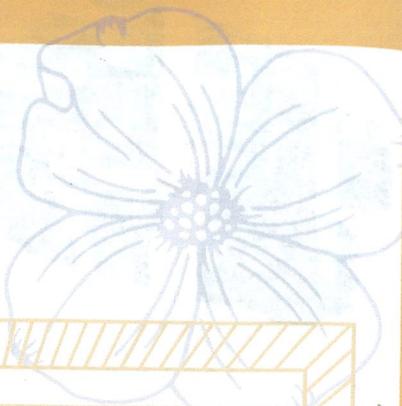

It was an honor Granddad, I saw every inch of the struggle you had to go through.

And even though this day saddens me, I cherish the countless times I was able to tell you that I loved you. So fly my gracious King.

No more screams and no more pains. And I know the Lord gave you your wings, knowing how much you called his name.

Love Your Grandson Man

The Odom family would like to acknowledge the Almighty God, family and friends. In times of sorrow God's light is the guide to peace.

"Death is no enemy of man, it is a friend, when the work of life is done just cuts the cord that binds the human boat to earth, that it may sail on smoother seas."
