

"You'll get there. To that place you've been longing for. The place that brings you peace, where you'll breathe in that relief. It may be at the next stop, or there may be a long way to go. But the journey will be worth it, more than you can possibly know. Until that point, don't give up and never despair. The place that you're heading for, you'll get there. You'll realize you had the strength that everyone said was within you. So, when you get there, take in every bit of the view. It's the most stunning one you'll ever see."
