

Angels

*There is one on my left and one on my right.
There is one to help me make it home at night.*

They are every shape, size and color.

*They are friend's next of kin or
just some stranger we meet on a whim.*

*They come around when we need them most
with a whisper or a touch of warmth and comfort.*

*They help us out when we are feeling down
and don't really want to get our act around.*

*So if you feel a little boost I have asked my Angels
to help carry away some of your pain for you!*

I know how it feels to need that little boost

*For I have had that lifted feeling
that maybe someone else has the wheel.*

*We all have had help we can't explain,
But we all like the feel when he has the reins.*

Thanks to my Heavenly Father for my Angels!

If you ask I know he will send more to you as needed!
