

***Carmen
Delia Bruno Rivera***

November 11, 1972 - March 22, 2021

In loving memory to the person who took a bit of everyones heart with her, you were and always will be the light in the dark, a sister anyone would love to have, the life of the party, caring, but most of all loving to anyone who got the pleasure to meet you. You gave us nothing but happy and funny memories we will always carry.

Lost but never forgotten, your journey was sadly short but you made it worth it for everyone while you were here and even after death you will be everyones favorite titi, so rest easy now because sooner or later we shall see each other again.
