My Dear Sister - Sheila Kay Zachmann

**"Frayed around the edges,
but solid to the core."
This describes my sister,
she's that and so much more.**

**Frayed by life's adversities,
the hardships and the wrongs,
but solid, for her faith in God
has always kept her strong.**

**She faces each new challenge
with wisdom and humor,
ever hoping in God's
promise of a better brighter future.**

**Her gentleness and kindness,
her humble heart of gold,
are treasures to her family
from the youngest to the old.**

**She has so many attributes
to list them would take time,
but these are just a few
that are favorites of mine.**

**She's funny and compassionate,
hardworking, thoughtful, smart.
When she comes up with new ideas,
I want to be apart.**

**Working cattle, making
cookies, filling journals
with her stories, she
brings joy to everything
she does. Her life is
never boring.**

**Yes, she's frayed
around the edges, but
she's solid to the core.
I'm thankful she's my
sister and I couldn't
love her more.**
