FAITH

*Faith moves us beyond the natural realm,
It is trusting in God who is at the helm,
Divinely guiding our vessels of life,
To bring them safely through the waters of strife.*

*Faith is the fuel that powers the ship,
That keeps it aloft, never to dip,
The power that keeps it buoyant and free,
Though it be tossed by the raging sea.*

*Faith unbroken, by the strain of the test
Will take it safely to the harbor of rest,
And though the vessel may quake and roll,
Faith, is trusting the Master in control.*

*He will calm the waters all around,
And protect his vessels homeward bound,
For, with God at our help, and faith as they key
We conquer the storms of the tempest-filled sea.*
