Subject: Proud Papa

On this Father's Day, I was thinking about my family, particularly my kids. I'm grateful for them and their efforts and pleased with the success they have had thus far in their lives. I have always encouraged them to get as much education as they could, as my father encouraged me. Sometimes, as they grow up, you wonder if they are listening to you, but I think our message has gotten through. My kids watched as I finished my degree at USU; since then, 3 of the four kids earned their 4-year degrees. Stephanie is now working on her Master's Degree in Mental Health Counseling. She will be tremendous in this needed occupation, as she is a very caring individual with a big heart! KC went on and earned his Master's Degree in Communication Management. He has worked successfully and creatively for several companies and started his own business. Kyle has been working for a decade or so in the healthcare industry as a critical care nurse; he is now returning to medical school to get a Doctorate Degree in medicine. He is the epitome of a caring medical worker and will be great in his next role. Kyle has also progressed from Private to a US Army National Guard and Reserves Captain. Finally, my youngest son Kelly got his education differently through experience. I envy his natural ability to do so many things well – craftsmanship, resolving mechanical issues, and problem-solving. He has worked his way up in business and is now operations manager at a multi-million-dollar property development company. My children all married successful spouses, including a travel agent, a nurse, an airline manager, and an attorney. They have accomplished all this while raising their children. I hope my message of the importance of education is passed on to the next generation – all 10 of my grandchildren!

Finally, it can't be Father's Day without a mother! To my wonderful wife and companion, thank you for your sacrifice and teaching this posterity of ours. Her influence may just be the greatest of all! Love you!

Love,

Dad (aka Papa)
